

## HSE Policy Statement

Industrial Technical Training Institute (ITTI) consider the Health & Safety of all employees, learners, trainees, customers and the other interested parties to be of a basic importance of our business. Furthermore, we will act positively to minimize the incident of all workplace risks and make the organization a safe and healthy place in which to work and be trained. through our commitment to take all reasonably practicable steps to prevent and protect the health, safety and welfare of our workforce, services and other who may be affected by our day to day activities as well as compliance with the relevant statutory provisions and good practice requirements.

Industrial Technical Training Institute will take all reasonably practicable steps and measures in its power to ensure that the objectives of the foregoing statement are met. The Management of (ITTI) have the responsibility of implementing this policy throughout the business, and they must ensure that Health and Safety considerations are given priority in planning and work operation.

To achieve this we must all take ownership of an active Health & Safety policy designed to achieve: -

- Providing a safe and healthy workplace environment for all employees and trainees.
- Providing safe access and egress to all workplace.
- The prevention of accidents involving personal injury and occupational related diseases.
- The prevention of incidents causing plant damage, dangerous occurrences etc.
- Consulting with our employees on matters affecting their health and safety.
- The control of visitors and contractors on site.

- Providing and maintaining safe places of work, environments, equipment and systems of work for all of our employees, at least to the standards required by relevant statutory provisions, approved codes of practice and recognized good working practices.
- Monitor, audit and regularly review this Policy and measure safety performance.

Top management recognize the need to carry out all the work activities in a manner that comply with current national and international legislation as well as safety standard and codes of practice.

This policy communicated to all permanent and part time staff, trainees, visitors, and contractors. In addition, it is be available for inspection therefore it displayed on the reception room notice board.

The policy and it is implementation will be reviewed and revised, as necessary, and at regular interval to ensure that it is reflects current business activities and any legislatives changes.

The management line of Industrial Technical Training Institute are committed to this policy and to the implementation and maintenance of the highest standard of health and safety across the organization. We expect each employee to share this commitment and work together to achieve it and attainment of all our Health and Safety objectives.
